RE: Announcement- New COO

---

I am delighted to announce that Lorena Cabral will be joining us as our new COO. Her first day of work with us will be Wednesday, November 17.

Lorena comes with extensive experience in Health Care, having worked previously in Western Canada for several years in senior leadership roles for Alberta Health Services, as well as Regina Qu'Appelle Health in Saskatchewan in the area of Diagnostic Imaging. She also worked for Health Sciences North in Northern Ontario as the Administrative Director Programs, Diagnostic Services and Ambulatory Care Programs. Her community sector experience includes an interim Executive Director position at St. Clair O'Connor Community Inc. Lorena has a Bachelor of Science degree in Health Studies, an MBA, and a CHE (Certified Health Executive) designation with the Canadian College of Health Leaders. We are looking forward to having Lorena share her impressive skill set and wealth of knowledge in health systems as our new COO.

Marybeth will be resuming her role as Director, HR as Lorena transitions to the COO role.

Please join me in welcoming Lorena to the PSL Team! I am sure you will all have an opportunity to meet her in the months to come as she familiarizes herself with our operations and our partners in the community.
